Come, boys, I have something to tell you,
Come near, I would whisper it low,
You are thinking of leaving the homestead,
Don't be in a hurry to go.

The City has many attractions,
But think of the vices and sins,
When once in a vortex of fashions,
How soon the course downward begins.

The farm is the safest and surest:
The orchards are loaded to-day;
You are free as the air in the mountains,
And monarch of all you survey.

Better stay on the farm awhile longer,
Though profit comes in rather slow,
Remember you have nothing to risk, boys,
Don't be in a hurry to go.

DARLING.

ACROSS THE RIVER.

RIPLEY.

The steamer Morning Star is at Cincinnati to receive a new boiler.

Homer Frederick, of Maysville, Ky., was the guest of his parents, in H. storia, several days last week.

J. B. Smith and Harry Shackelford have gone to Montgomery county, Ky., to take charge of the tobacco warehouse of Louis Kirkpatrick.

THE Boston Advertiser says: The liquor question, which is always with us, is drifting toward a novel solution in many parts of the West. In Iowa, Illinois and other States the experiment of very high licenses undergoes a moderately successful trial, the result being that the liquor dealers who have obeyed the law are interested in exposing those rivals and competitors who have failed to pay the license fee of \$500 more or less. But a high-license system strictly enforced will not prevent many enormities, the true remedy for which lies in public opinion, in an improved state of the people, and in the elevation of social character. And there, after all, is the heart of the problem—reform your people, and their manners will take care of themselves.

THE New York Sun, commenting upon the failure of Ferry, of Michigan, to secure a re-election to the U. S. Senate, says: As a Senator, Mr. Ferry has been illustrious neither for wisdom nor for eloquence. His vote has counted one for the party and that is all that can be said of him. During the memorable weeks of the electoral dispute he sat behind the President's desk in the Senate chamber; and no scheme of force or fraud proposed at any time by the conspirators acting in Hayes' interest was so wild that Ferry's compliance and cooperation could not be counted on as a matter of course.

WIGGINS adheres to his predictions of a storm March 9th and 11th. He says it will be as great a storm as ever occurred upon the earth, or can possibly occur. "I am positive," he says, "a tidal wave will occur in the Bay of Bengal, coast of Australia, and Gulf of Mexico."

JAY HUBBELL, the distinguished king of the assessment pirates, says the Philadelphia Times, has just testified under oath in the Virginia contested case of Massey vs. Wise, that he collected \$260,000 during the last campaign, \$10,000 of which was sent to assist the Mahone repudiating crowd in the Old Dominion. If \$260,000 could yield nearly sixty Democratic majority in the next House, how many Republicans would have been chosen if all the clerks and officers had paid up, so that Hubbell would have had \$400,000 to expend?

Sherman Hupp, dropped dead in a school at Caldwell, O., on Saturday.

Dr. J. J. Grace, of Whistler, Ala., has brought suit at Louisville against the Travelers' Insurance Company, for \$50,000 damages for libel, based on an article in the Travelers' Record, published at Hartford, Conn., in which he was charged with "doctoring" the claim of a fireman injured on the road.

The London Medical Record concludes from Prof. Koch's experiments that only the certain disinfectants are chlorine, bromine, and corrosive sublimate. Solutions of one part of the latter to 1,000 parts of water will kill spores in ten minutes, while a solution of one in 15,000 is strong enough to arrest the power of development in micro organisms.

The late Archbishop Taft had to the last, especially when he warmed up in his sermons, a strong Scotch accent. He did not favor Mr. Gladstone's policy in latter days, especially on the Eastern question; however, on occasions he has done good service to the Liberal cause. Had it not been for his assistance, the bill for disestablishing the Irish Church would not have passed.

According to Dr. Take, the English hygienist, idleness and ignorance are much more prolific causes of disease among women than overwork. They are the main causes of hysteria, and of many other evils, including insanity and insanity. The break down from overstrain does occasionally take place, and the first important symptom is sleeplessness; when that sets in there is cause for alarm.

Leo XIII, has just given an audience in the Vatican to 1,600 children from five years of age and upward, of the elementary schools established and supported by him. The children, who sang hymns in chorus and recited pieces of poetry, were accompanied by their teachers, and at the conclusion of the audience his Holiness gave the Pontifical Almoner 2,000 francs to be distributed among the poorer scholars.

One of the most precious volumes in the Ashburnham collection, which is to be brought into the market in England, is one illuminated by Perugino. It is in perfect condition and preservation. Early in this century it was acquired at Rome for 100 scudi; it may now realize between twenty and twenty-five thousand dollars. The sum demanded for the collection of manuscripts en bloc is \$800,000, and for the library \$750,000.
